Form 41-101F1
Information Required in a Prospectus

GENERAL INSTRUCTIONS

(1) The objective of the prospectus is to provide information concerning the issuer that an investor needs in order to make an informed investment decision. This Form sets out specific disclosure requirements that are in addition to the general requirement under securities legislation to provide full, true and plain disclosure of all material facts relating to the securities to be distributed. Certain rules of specific application impose prospectus disclosure obligations in addition to those described in this Form.

(2) Terms used and not defined in this Form that are defined or interpreted in the Instrument bear that definition or interpretation. Other definitions are set out in NI 14-101.

(3) In determining the degree of detail required, a standard of materiality must be applied. Materiality is a matter of judgment in the particular circumstance, and is determined in relation to an item's significance to investors, analysts and other users of the information. An item of information, or an aggregate of items, is considered material if it is probable that its omission or misstatement would influence or change an investment decision with respect to the issuer's securities. In determining whether information is material, take into account both quantitative and qualitative factors. The potential significance of items must be considered individually rather than on a net basis, if the items have an offsetting effect.

(4) Unless an item specifically requires disclosure only in the preliminary prospectus, the disclosure requirements set out in this Form apply to both the preliminary prospectus and the prospectus. Details concerning the price and other matters dependent upon or relating to price, such as the number of securities being distributed, may be left out of the preliminary prospectus, along with specifics concerning the plan of distribution, to the extent that these matters have not been decided.

(5) The disclosure must be understandable to readers and presented in an easy-to-read format. The presentation of information should comply with the plain language principles listed in section 4.1 of Companion Policy 41-101CP General Prospectus Requirements. If technical terms are required, clear and concise explanations should be included.

(6) No reference need be made to inapplicable items and, unless otherwise required in this Form, negative answers to items may be omitted.

(7) Where the term "issuer" is used, it may be necessary, in order to meet the requirement for full, true and plain disclosure of all material facts, to also include disclosure with respect to persons or companies that the issuer is required, under the issuer's GAAP, to consolidate, proportionately consolidate or account for using the equity method (for example, including "subsidiaries" as that term is used in Canadian GAAP applicable to publicly accountable enterprises). If it is more likely than not that a person or company will become an entity that the issuer will be required, under the issuer's GAAP, to consolidate, proportionately consolidate or account for using the equity method, it may be necessary to also include disclosure with respect to the person or company.

(8) An issuer that is a special purpose entity may have to modify the disclosure items to reflect the special purpose nature of its business.

(9) If disclosure is required as of a specific date and there has been a material change or change that is otherwise significant in the required information subsequent to that date, present the information as of the date of the change or a date subsequent to the change instead.

(10) *If an issuer discloses financial information in a preliminary prospectus or prospectus in a currency other than the Canadian dollar, prominently display the presentation currency.*

(11) *Except as otherwise required or permitted, include information in a narrative form. The issuer may include graphs, photographs, maps, artwork or other forms of illustration, if relevant to the business of the issuer or the distribution and not misleading. Include descriptive headings. Except for information that appears in a summary, information required under more than one Item need not be repeated.*

(12) *Certain requirements in this Form make reference to requirements in another instrument or form. Unless this Form states otherwise, issuers must also follow the instruction or requirement in the other instrument or form. These references include references to Form 51-102F2. Venture issuers must include such disclosure in a preliminary prospectus or prospectus even if they are not otherwise required to file an annual information form under NI 51-102.*

(13) *Wherever this Form uses the word "subsidiary", the term includes companies and other types of business organizations such as partnerships, trusts and other unincorporated business entities.*

(14) *Where requirements in this Form make reference to, or are substantially similar to, requirements in Form 51-102F2, issuers may apply the general provision in subpart 1(d) of Form 51-102F2. However, issuers must supplement this disclosure if the supplemented disclosure is necessary to ensure that the prospectus provides full, true and plain disclosure of all material facts related to the securities to be distributed as required under Item 29 of this Form.*

(15) *Forward-looking information, as defined in NI 51-102, included in a prospectus must comply with section 4A.2 of NI 51-102 and must include the disclosure described in section 4A.3 of NI 51-102. In addition to the foregoing, FOFI or a financial outlook, each as defined in NI 51-102, included in a prospectus must comply with Part 4B of NI 51-102. If the forward-looking information relates to an issuer or other entity that is not a reporting issuer in any jurisdiction, section 4A.2, section 4A.3 and Part 4B of NI 51-102 apply as if the issuer or other entity were a reporting issuer in at least one jurisdiction.*

(16) *Marketing materials prepared in accordance with subsections 13.7(1) or 13.8(1) of the Instrument are the only documents that can be incorporated by reference into a long form prospectus.*

1.4(3) If the distribution of the securities is to be on a best efforts basis, and a minimum offering amount

(a) is required for the issuer to achieve one or more of the purposes of the offering, provide totals for both the minimum and maximum offering amount, or

(b) is not required for the issuer to achieve any of the purposes of the offering,

Reduced price distributions

1.8 If an underwriter wishes to be able to decrease the price at which securities are distributed for cash from the initial offering price fixed in the prospectus, include in boldface type a cross-reference to the section in the prospectus where disclosure concerning the possible price decrease is provided.

"There is no market through which these securities may be sold and purchasers may not be able to resell securities purchased under this prospectus. This may affect the pricing of the securities in the secondary market, the transparency and availability of trading prices, the liquidity of the securities, and the extent of issuer regulation. See 'Risk Factors'."

1.9(4) If the issuer has complied with the requirements of the Instrument as an IPO venture issuer, include a statement, in substantially the following form, with bracketed information completed:

INSTRUCTIONS

(1) Cash flow coverage may be disclosed but only as a supplement to earnings coverage and only if the method of calculation is fully disclosed.

(2) Earnings coverage is calculated by dividing an entity's profit or loss attributable to owners of the parent (the numerator) by its borrowing costs and dividend obligations (the denominator).

(d) for distributions of debt securities, the appropriate denominator is borrowing costs, after giving effect to the new debt securities issue and any retirement of obligations, plus the borrowing costs that have been capitalized during the period;

(e) for distributions of preferred shares

(i) the appropriate denominator is dividends declared during the period, together with undeclared dividends on cumulative preferred shares, after giving effect to the new preferred share issue, plus the issuer's annual borrowing cost requirements, including the borrowing costs that have been capitalized during the period, less any retirement of obligations, and

(ii) dividends should be grossed-up to a before-tax equivalent using the issuer's effective income tax rate; and

(f) for distributions of both debt securities and preferred shares, the appropriate denominator is the same as for a preferred share issue, except that the denominator should also reflect the effect of the debt securities being offered pursuant to the prospectus.

(4) The denominator represents a pro forma calculation of the aggregate of an issuer's borrowing cost obligations on all financial liabilities and dividend obligations (including both dividends declared and undeclared dividends on cumulative preferred shares) with respect to all outstanding preferred shares, as adjusted to reflect

(a) the issuance of all financial liabilities and, in addition in the case of an issuance of preferred shares, all preferred shares issued, since the date of the annual financial statements or interim financial report;

(b) the issuance of the securities that are to be distributed under the prospectus, based on a reasonable estimate of the price at which these securities will be distributed; and

(c) the repayment or redemption of all financial liabilities since the date of the annual financial statements or interim financial report, all financial liabilities to be repaid or redeemed from the proceeds to be realized from the sale of securities under the prospectus and, in addition, in the case of an issuance of preferred shares, all preferred shares repaid or redeemed since the date of the annual financial statements or interim financial report and all preferred shares to be repaid or redeemed from the proceeds to be realized from the sale of securities under the prospectus.

(d) [Repealed]

(5) [Repealed]

(6) For debt securities, disclosure of earnings coverage shall include language similar to the following, with the bracketed and bulleted information completed:

"[Name of the issuer]'s borrowing cost requirements, after giving effect to the issue of [the debt securities to be distributed under the prospectus], amounted to \$• for the 12 months ended •. "[Name of the issuer]'s dividend requirements on all of its preferred shares, after giving effect to the issue of [the preferred shares to be distributed under the prospectus], and adjusted to a before-tax equivalent using an effective income tax rate of •%, amounted to \$• for the 12 months ended •. [Name of the issuer]'s borrowing cost requirements for the 12 months then ended amounted to \$•. [Name of the issuer]'s profit or loss attributable to owners of the parent before borrowing costs and income tax for the 12 months ended • was \$•, which is • times [name of the issuer]'s aggregate dividend and borrowing cost requirements for this period."

(8) Other earnings coverage calculations may be included as supplementary disclosure to the required earnings coverage calculations outlined above as long as their derivation is disclosed and they are not given greater prominence than the required earnings coverage calculations.

(a) the voting rights attached to the restricted securities that are the subject of the distribution or that will result from the distribution, either directly or following a conversion, exchange or exercise, and the voting rights, if any, attached to the securities of any other class of securities of the issuer that are the same as or greater than, on a per security basis, those attached to the restricted securities,

(b) any significant provisions under applicable corporate and securities law that do not apply to the holders of the restricted securities that are the subject of the distribution or that will result from the distribution, either directly or following a conversion, exchange or exercise, but do apply to the holders of another class of equity securities, and the extent of any rights provided in the constating documents or otherwise for the protection of holders of the restricted securities,

(c) any rights under applicable corporate law, in the constating documents or otherwise, of holders of restricted securities that are the subject of the distribution or that will result from the distribution, either directly or following a conversion, exchange or exercise, to attend, in person or by proxy, meetings of holders of equity securities of the issuer and to speak at the meetings to the same extent that holders of equity securities are entitled, and

10.6(2) If holders of restricted securities do not have all of the rights referred to in subsection (1) the detailed description referred to in that subsection must include, in boldface type, a statement of the rights the holders do not have.

10.6(3) If the issuer is required to include the disclosure referred to in subsection (1), state the percentage of the aggregate voting rights attached to the issuer's securities that will be represented by restricted securities after effect has been given to the issuance of the securities being offered.

- (a) each rating received from a credit rating organization,
- (b) for each rating disclosed under paragraph (a), the name of the credit rating organization that has assigned the rating,

- (g) any announcement made by, or any proposed announcement known to the issuer that is to be made by, a credit rating organization to the effect that the organization is reviewing or intends to revise or withdraw a rating previously assigned and required to be disclosed under this section.

INSTRUCTIONS

There may be factors relating to a security that are not addressed by a credit rating organization when they give a rating. For example, in the case of cash settled derivative instruments, factors in addition to the creditworthiness of the issuer, such as the continued subsistence of the underlying interest or the volatility of the price, value or level of the underlying interest may be reflected in the rating analysis. Rather than being addressed in the rating itself, these factors may be described by a credit rating organization by way of a superscript or other notation to a rating. Any such attributes must be discussed in the disclosure under this section.

A provisional rating received before the issuer's most recently completed financial year is not required to be disclosed under this section.

Other attributes

The issuer and the underwriters provided marketing materials to those potential investors in connection with those road shows.

The issuer and the underwriters can only do that if they give a contractual right to investors in the event the marketing materials contain a misrepresentation.

Pursuant to that provision, the issuer and the underwriters signing the certificate contained in this prospectus have agreed that in the event the marketing materials relating to those road shows contain a misrepresentation (as defined in securities legislation in *[insert the jurisdictions of Canada where the prospectus was filed]*), a purchaser resident in *[insert the jurisdictions of Canada where the prospectus was filed]* who was provided with those marketing materials in connection with the road shows and who purchases the securities offered by this prospectus during the period of distribution shall have, without regard to whether the purchaser relied on the misrepresentation, rights against the issuer and each underwriter with respect to the misrepresentation which are equivalent to the rights under the securities legislation of the jurisdiction in Canada where the purchaser is resident, subject to the defences, limitations and other terms of that legislation, as if the misrepresentation was contained in this prospectus.

However, this contractual right does not apply to the extent that the contents of the marketing materials relating to the road shows have been modified or superseded by a statement in this prospectus. In particular, *[insert a description of how any statement in the marketing materials has been modified or superseded by a statement in the prospectus]."*
